Above & beyond the warranty.

Most appliances come with a manufacturer's warranty that lasts one or two years. The Home Depot Protection Plan adds coverage and benefits the warranty doesn't include—and when the manufacturer's warranty ends, we cover your item longer.

During the manufacturer's warranty, if your product has an issue that's covered by the warranty, you may be referred to the manufacturer for service. If there's an issue that's not covered by the manufacturer but is included in your The Home Depot Protection Plan, the plan will cover it.

What's Included:	From Day 1	After Manufacturer's Warranty Ends
